

APPENDIX J

ANNUAL OPERATIONAL AND WRM PALLET AND NET REQUIREMENTS REVALIDATION LETTER

MEMORANDUM FOR WR-ALC/LES

FROM: HQ AMC/A4TV
402 Scott Drive, Unit 3A1
Scott AFB IL 62225-5302

SUBJECT: Validation of Operational and War Reserve Material (WRM) 463L Pallet and Net
Requirements for FY 05

1. Attached are our 463L pallet and net requirements for FY 05. Methodology used to compute these requirements was as follows:
 - a. Operational. (Provide detailed narrative description of methods used to determine total requirements -- mathematical formulas used; assumptions made; sources of raw planning data; MAJCOM-unique planning factors; computer assistance, if any.)
 - b. WRM. Cite planning documents use to compute requirements, and address any deviations from computation methods prescribed in this regulation.
2. These requirements represent the minimum essential quantity needed to accomplish the mission. POC is CMSgt Rusty Pallet, DSN 779-4631.

SIGNATURE BLOCK, Major, USAF
Chief, Facilities and Equipment

Attachments:

1. Requirements Summary
2. Operational Requirements
3. WRM Requirements

NOTE: Letter and attachments may be electronically mailed to WR-ALC/LES. Letter with signature scanned or have Public Key Infrastructure signature.

The following format, Table J-1, will be used to validate operational and WRM pallet and net requirements. Table J-1 is available as an EXCEL spreadsheet on the United States Transportation Command business web page (<https://customer.transcom.mil>) in this regulation, Part VI website.

Table J-1. Operational and War Reserve Material (WRM) 463L Pallet and Net Requirements for FY_____

Operational and War Reserve Material (WRM) 463L Pallet and Net Requirements for FY_____
